Factsheet for case SK-2020-12/456

## Changes in the production of St. Nicolaus Distillery in Leopoldov

Factsheet generated on 27 April 2020, 18:22

Country	Slovakia, applies locally – SK021 Trnavský kraj
Time period	Open ended, started on 20 March 2020
Type	Company practice
Category	Re-orientation of business activities – Change of production/innovation
Case created	10 April 2020 (updated 22 April 2020)

### Background Information

The management of the company promptly reacted to the higher demand of healthcare staff for disinfection products. The company focused on the pure alcohol production for disinfection purposes and on the production of disinfectant solution on alcohol basis. The company has also decided to supply social services facilities, mostly senior homes for free with disinfection products in order to keep strict hygienic requirements and to protect the most vulnerable group - the seniors.

### Content of measure

The distillery reduced the vinegar production in order to increase the pure alcohol for disinfection purposes and disinfection solutions on alcohol basis. Immediately, the products are distributed nationwide to hospitals, healthcare facilities, pharmacies and regionally to social services facilities (senior homes). They produce 36,000 liters of pure alcohol daily.

On 27 March 2020 the company was ready to give 1,000 liters of disinfection to senior homes. They supplied senior homes mostly in towns and villages of Trnava and Nitra regions. In case of need the company is also ready to limit its alcohol beverages production in order to meet a high demand for disinfection products.

## Use of measure

Estimations are not available yet.

## Actors, target groups and funding
