Compensation for doctors and other officials infected with coronavirus while on duty

Factsheet generated on 23 April 2020, 12:22

| | |
|--------------|---|
| Country | Lithuania, applies nationwide |
| Time period | Open ended, started on 19 March 2020 |
| Type | Legislation or other statutory regulation |
| Category | Income support to workers and those laid off – Paid sick leave |
| Case created | 06 April 2020 (updated 17 April 2020) |

Background Information

According to Law No. XIII-2824 of the Republic of Lithuania amending Article 11 to Law No. IX-110 on Sickness and Maternity Social Insurance (17/03/2020), a higher sickness benefit shall be paid to persons who during an emergency situation or quarantine declared by the Government of the Republic of Lithuania, in performance of his or her professional functions involving unavoidable (necessary) contact with a person suffering from a serious infectious disease, contract a disease for which the Government of the Republic of Lithuania has declared emergency or quarantine. The aim is to increase, at least in part, additional social guarantees for healthcare workers and officials working in outbreaks of serious infectious diseases.

Content of measure

According to Law No. XIII-2824 of the Republic of Lithuania amending Article 11 to Law No. IX-110 on Sickness and Maternity Social Insurance (17/03/2020), a higher sickness benefit shall be paid to persons who during an emergency situation or quarantine declared by the Government of the Republic of Lithuania, in performance of his or her professional functions involving unavoidable (necessary) contact with a person suffering from a serious infectious disease, contract a disease for which the Government of the Republic of Lithuania has declared emergency or quarantine. Thus, doctors, officials, or other employees who have been infected with coronavirus while on duty will be eligible for a higher rate of sickness benefit. The amount of the sickness benefit will be 77.58% (instead of 62.06%) of the recipient's average wage before tax (i.e. 100% of net wage). In case of illness at the workplace, the circumstances are determined in each case individually,

after the employer submits to the territorial (local) unit of the Board of the State Social Insurance Fund documents showing the causal relationship between the performance of professional activities and disease.

Use of measure

No information to date.
