Due to reduced income of companies, there are difficulties foreseen in relation to paying taxes. Collecting interest on these tax arrears further worsens the situation of the companies. Therefore the Government decided that while tax obligation remains in place, there are other ways to reduce the burden of the companies. For suspending the interests on tax arrears, a Government decree was changed and relevant subsection was added.

The Estonian Tax and Customs Board suspends the calculation of interests on tax arrears of companies from 1 March to the end of the emergency situation; afterwards the interest rate is reduced from 0.06% to 0.03% per day until the end of 2021.
