Background information

When the Austrian government ordered the temporary closure of accommodations (hostels, hotels, b&b etc.) as one public health measure to combat the Corona virus, this website was set up. Its aim is to match open hotels with companies providing essential services, who are looking for temporary accommodation for workers in essential service. e.g. for caregivers, food retailers, mechanics and aid workers.

It is available for all 9 Austrian regions. For establishments in the regions of Salzburg, Carinthia and Vorarlberg special exceptions are required, as all touristic establishments have been locked between 16 March 2020 and 13 April 2020, in the first place.

Content of measure

Businesses in accommodation services can register on: <https://openhotels.at/> and companies can then look for open accommodation for essential workers in their regions. It has been set up by the section on hotel businesses of the Federal Economic Chamber (WKO). Establishments can register on the platform, once they have been issued such an exception. Sanctions for keeping the establishments open and non-compliance with the regulation amount to 1,450 euro or alternatively imprisonment of up to 4 weeks.
