Background Information

Under Sections 3-5. of the government decree 47/2020. (18 March) a selected group of businesses will receive relief from certain types of taxes in the months of March-June 2020. The reason for the measure is specified in the title of the decree: “immediate measures necessary to alleviate the impacts of the Coronavirus pandemic on the national economy.” The main target is to help employees working in sectors that are hard-hit by the pandemic. In the period of the intervention companies will not pay social contributions after their workers and employees will not have certain taxes deducted from their pay.

Content of measure

Employers will get relief from paying all tax on labour, and employees will be exempt from all taxes excluding health contributions in the months of March-June 2020. Employees will pay no more than the minimum amount in health contribution of HUF 7,710 per month.

Businesses eligible are those active in the following sectors: tourism, catering, entertainment, gambling, film industry, live performance, event organiser and sports activities. Passenger transport services are also included, but they (taxi drivers) more often operate in solo-self-employed form.

Businesses subject to tourism development contributions will also get relief from this payment from March to June 2020.
