Factsheet for case PT-2020-4/532

Occupational health and safety promotion - Health professionals

Factsheet generated on 04 May 2020, 08:04

Country	Portugal, applies nationwide
Time period	Open ended, started on 25 January 2020
Type	Recommendation
Category	Protection of workers at the workplace – Occupational health and safety
Case created	13 April 2020 (updated 20 April 2020)

Background information

Within the scope of the infection by the new Coronavirus (2019-nCoV or nCoV), and in order to minimise the risks of transmission of this infection, the Guidelines 002/2020 of 25 January, updated on 10 February 2020, and 003/2020 of 30 January were issued by the General-Directorate of Health.

These are addressed to health professionals, notably aiming at promoting their occupational health and safety.

These guidelines may be updated at any time and complementary specific orientations will be issued. The situations not foreseen in these guidelines should be assessed case by case.

Content of measure

In order to minimise the risks of transmission of infection, the General-Directorate of Health issued guidelines addressed to health professionals, notably aiming at promoting their occupational health and safety.

These guidelines define procedures in this domain regarding:

- how to deal with a case suspect of infection;
- how to implement measures of prevention and control of infection when dealing with patients with a confirmation of infection;

- how to prevent and control infection in health services, hospitals in particular;
- the type and characteristics of individual protective equipment to be used according to the level of care to be provided;
- the disinfection of materials and equipments;
- environment control;
- safe clothes handling;
- safe waste collection.
