Background information

Due to reduced income of companies, there are difficulties foreseen in relation to paying taxes by the companies. Collecting interest on these tax arrears further worsens the situation of the companies. Therefore, the Government decided that while tax obligation remains in place, there are other ways to reduce the burden of the companies. For suspending the interests on tax arrears, a Government decree was changed and relevant subsection was added.

Content of measure

The Estonian Tax and Customs Board suspends the calculation of interests on tax arrears of companies from 1 March until the end of the emergency situation (currently 17 May 2020). After the end of the emergency situation, the interest rate is reduced from 0.06% to 0.03% per day until the end of 2021.

Also, companies with deferred taxes or deferred tax debt can have interest rate reduced by up to 100% from 1 May 2020 to 31 December 2021. This is usually maximum 50%.

Additionally, no tax arrears are published in public business registries as usual. No end date for this is brought out.
