Case created	09 April 2020 (updated 29 April 2020)

Background information

The German Federal Government changed tax law, in order to help businesses with their tax debts and improve their liquidity. All companies with tax debts can apply for this measure until the end of 2020. This measure is part of the support package to stabilise the German economy and help out firms during the Corona crisis. The package was adopted by the Federal Government at the end of March 2020

Content of measure

The German Federal Government temporarily changed taxation rules for companies. Overdue tax debts (and default charges) can be waived until the end of 2020. Companies need to apply for postponing their tax debt payments until the end of 2020 at their local tax authority office. This measure includes any debts regards the income, corporate tax and sales tax. It is part of a broader package that also includes other changes in tax law, all of them directed at easing tax burdens for companies in times of crisis; and also includes easier access to loans, start-up support or financial help for solo- or micro entrepreneurs.
