Factsheet for case **LT-2020-12/370**

Wage increases for medical staff

Factsheet generated on 30 April 2020, 13:22

Country	Lithuania, applies nationwide
Time period	Temporary, 16 March 2020 - 27 April 2020
Type	Legislation or other statutory regulation
Category	Support for essential services – Remuneration and rewards for workers in essential services
Case created	08 April 2020 (updated 26 April 2020)

Background information

On 7 March 2020, the Seimas of the Republic of Lithuania adopted Law XIII-2845 of the Republic of Lithuania amending Article 32 of and adding Article 32(1) to Law No. I - 1553 on Prevention and Control of Communicable Diseases in Humans, which improved social guarantees for healthcare workers in the event of incapacity for work and increased wage supplements for employees working in particularly dangerous conditions (virus hotspots). The aim is to support healthcare workers and other employees working in outbreaks of Covid-19.

Content of measure

Amendments to the Law stipulate that employees belonging to the Lithuanian national health system (physicians, nurses, cleaners, etc.), including resident doctors working in particularly dangerous conditions, outbreaks of infection, will be paid wage supplements from 60% to 100% (depending on the employees' pay system in the institution), taking into account the nature, complexity and level of responsibility of the functions performed by, the workload and the scale of the activity of a particular healthcare professional. The said salaries of healthcare employees will be recalculated and paid for the period from the date of entry into force of the quarantine, i.e. from 16 March 2020. Around 130 million EUR from the reserve of the Compulsory Health Insurance Fund will be allocated for this purpose. The total salary fund for medical staff will increase by 18%.

Use of measure

No information to date.
