Background Information

In Finland, entrepreneurs are not entitled to labour market support. This is regulated in section 11 of the Unemployment Security Act (Työttömyysturvalaki) (2002/1290).

The outbreak of COVID-19 has had a major impact on entrepreneurial activities in Finland. In order to ease the pressure caused by the outbreak of COVID-19 on entrepreneurs, the Parliament approved an amendment that will give entrepreneurs a temporary right to labour market support under the Unemployment Security Act (2002/1290).

Content of measure

To be eligible for labour market support, the following conditions must be met:

- 1) the entrepreneur's full-time employment has ended or the income from the entrepreneurial activities is less than €1,089 per month
- 2) the reduction of income or full-time work is due to the COVID-19 outbreak

The entrepreneur may continue their business activities while receiving labour market support.

The support can be paid to entrepreneurs between 16 March 2020 and 30 June 2020. The support can be received retroactively.

The labour market support is €33,6 per day and it is paid 5 days a week. Income from entrepreneurial activities decreases the labour market support.
