Type	Legislation or other statutory regulation

### Background Information

According to Ordinance amending the Ordinance on the implementation of the General Tax Law (OG 35/2020) (see case HR -2020-12/288) new conditions are laid down for deferring VAT for the duration of special circumstances. Delaying the payment of VAT liability is possible only for taxpayers who, in 2019, have not achieved the value of supplies of goods and services in excess of HRK 7,500,000,000 (€ 1 million) in the previous year, and which determines the tax base according to deliveries made and in accordance with a special regulation on value added tax.

On 16 April 2020 The Tax Administration has issued Instructions for deferring and paying VAT during special circumstances.

### Content of measure

The VAT liability for the month of February (VAT form submitted until March 20, 2020) cannot be subject to a payment delay. Taxpayers who pay VAT monthly may apply a deferral of payment with a liability for March 2020, and those who pay VAT quarterly may apply a deferral for tax liability for the first quarter 2020. Very important is that the government decided that for VAT payments, it would be possible to defer such payments until the billing of invoices is issued, as is now the case with small businesses. The deadline for

the submission of financial statements for 2019 is extended until 30 June 2020 and businesses are exempt from paying the Financial Agency fee for the publication of financial statements.
